UPCYCLED T-SHIRT YARN COASTERS

1. Select your t-shirt yarn (One strip 4 ft. long if twisting. Two strips 3 ft. long if braiding.)
2. Prepare your yarn by folding your 4 ft. strip in half and twisting or braiding together your 3 ft. strips. If twisting, use hot glue to glue together your folded end to offer a starting point for your twist.
3. Once all twisted or braided, secure the ends with hot glue.
4. Grab a CD and place a bead of hot glue around the center hole of your CD.
5. Place one end of your twisted or braided strip onto the glue strip and secure.
6. Continue to glue and place your yarn on your CD in a circular pattern around your CD.
7. When your CD is fully covered, cut off any remaining yarn and glue your cut end to the CD to finish.
